Muslim Dissidents Denounce Islam

By *admin*

Created 09/28/2009 - 09:18

We fight ignorance with knowledge. We are motivated by love of Humanity. We endeavor to bring peace. We strive for equality of genders, for elimination of prejudices, for freedom of beliefs, for democracy and for unity of Humanity.

The world was shocked to watch in disbelief the events of September 11 and then the brutal slaying of the young journalist; **Daniel Pearl made it clear that we are facing a ruthless and an evil force.** Yet what happened is nothing compared to what is still to come. There is not a day that tens of lives are not lost across the globe to this evil force. This evil knows no bounds. This hatred has no limits. It is inspired by an ideology that claims to be from God. It is backed by a billion or more people. No one is safe. Anyone could become the target of this hate. We may be at the threshold of another war that could eclipse the horrors of the preceding wars.

Yes indeed this could be the beginning of the World War III. But unlike the previous wars the enemy in this war is invisible and our guns, tanks and our fighter jets are powerless. This is not a war between the East and the West. It is not a war between the haves and the have-nots. It is not even a war between Muslims and non-Muslims. **It is a war between the civilized world and barbarity.**

Making war against terrorism is like fighting against viruses. **Terrorists are our enemies but they can be anywhere. They are among us, they live in our countries, they work in our factories and offices, and they are our neighbors.** They snug like a bug in a rug, ready for action when they are asked to. They will kill you when the order comes and the fatwa is issued. No one is safe at home or abroad. You could be used as a pawn and or a bargaining chip and easily killed, as there are others who would replace you. Our cities, our water reservoirs, our plains and our offices are no more safe.

Why they hate us and why do they want to kill us?

People just don't decide to become terrorists. Terrorists are motivated by a doctrine that instills in them the hate and the will to kill. But you cannot hate so intensely unless you feel victimized. Yes the terrorists feel victimized. They are filled with venom. That is why they are willing to die. Part of that victimization is justified, but the great part of that is induced in them by the teachings of the Quran. Quran convinces the Muslims that they are the victims and exhorts them to lash out at the non-Muslims who victimize them, fight against them and murder them, and it promises that despite their apparent weakness Allah will render them victorious. Armed with this intense hate and this unwavering conviction, the believers become mindless machines ready to kill and ready to die. They are "The Borg" of the real life.

We cannot combat this terrorism unless we stop this hate. We cannot stop this hate unless we stop the doctrine that promotes this hate. Quran is a book full of hate of the non-believers. To overlook this fact is a gross error that could cost millions, if not billions of lives. There is no time for political correctness and appeasements. Not only our lives, but also the very existence of our civilization is in danger. We either eliminate the root of this hatred or we will all perish. Faith Freedom International is created to combat hate and fight against Islamic terrorism by eliminating its moral justification. If we can weed out the hatred and plant love in the hearts of the angry Muslims, there won't be Islamic terrorists. But this is not possible as long as they believe in the Quran that tells them to hate others so explicitly.

Yes there are Hindu, Buddhist and Christian terrorists too. But these terrorists have chosen paths of violence despite the teachings of their religions. **In Islam terrorism is prescribed in Quran, it is encouraged and recommended.** The prophet of Islam laid the example of terror for all his followers to follow. He raided civilians, massacred his prisoners of war, raped their women, enslaved women and children, looted their belongings, assassinated his opponents, burned trees and showed no mercy to anyone who dared to stand in his way. These are historic facts narrated by Muslim historians. Islamic terrorists are not doing anything that their prophet did not do.

Islam marches on two legs. **One leg is represented by the Islamic apologists: those who call themselves doctors and write in good English painting a rosy picture of Islam and claiming it to be a "religion of peace". The tools of these so-called "intellectuals" are lies and deceit. The terrorists represent the other leg.** This group executes the second phase of Islamic expansionism. Though an unwary person may think that these two groups are antagonist to each other, in reality they are part of the same plan and indeed are two faces of the same coin and very much interdependent.

Faith Freedom International is a movement of mostly ex-Muslims who know too well that Islam is a serious problem for humanity. We know that good Muslims lose their respect for humanity when they decide to practice the teachings of the Quran.

Islamic terror machinery is fueled by billions of dollars. All those good Muslims who support innocently their Mosques and pay their zakat and with every liter of oil that you pump into your SUV, Islamic terrorism is invigorated. Thousands of books and websites are spewing lies to promote Islam and this means more terrorism. With every new convert that falls into the trap of Islam many terrorists are born. Some unscrupulous western writers who have sold their integrity have turned Islamic apologists too. And our politicians have no choice **but to play the PC game and echo the lie that "Islam is a religion of peace".**

Who is going to tell the truth?

Faith Freedom International is the voice of the truth. We are dedicated to one goal and that is to halt the hate and to expose the lies of Islam and call off its expansionist plots.

Islam is absolute darkness and hence vulnerable to the light of the truth. However, it is not vulnerable to hate. Islam feeds on hate and no one can overpower Islam by hating the Muslims. All doctrines of hate need enemies to survive. The feeling of being victimized is essential to promote hate. Therefore those antagonistic groups who promote hate of Muslims are actually helping Islam. Efforts such as ours who love our people and truly want to help them integrate in the rest of the world and emancipate from their backwardness will bear fruit while hate that fundamentalists of other religions foment against Muslims will be counterproductive.

We declare Islam to be a false religion and challenge the Islamic apologists to prove us wrong. We believe that Islam is jeopardizing the peace of the world and is putting in danger the lives of every one of us including Muslims themselves. We urge the peace-loving people of the world, ex-Muslims and others, to help us fight this over-grown terrorist organization. This is indeed the fight of David against Goliath. We are a small but rapidly growing group of people, with our own lives to run and works to do but we are poised to face the second most spread "religion" of the world some of whose followers would not hesitate to kill us if they could lay their hand on us.

Yet we shall win. We shall win because light is more powerful than darkness and truth is more potent than lies. Islam is outwardly powerful today and its followers are fanatics and violent, but it is not invincible. Islam is absolute darkness and as such is susceptible to light. **Islam is founded on lies and therefore will crumble with a little blow of the truth. To fight Islamic terrorism we have to fight Islam itself because Islam IS terrorism.** This becomes clear by just reading a few pages from the Quran. You cannot fight Islamic terrorism through military force. Billions of dollars expended for armaments will not stop it. USA is giving Egypt 3 billion dollars annually in aids yet every child in a Madrassa of Egypt will rise his hand when his religious teacher asks, **"who is willing to become a martyr by blowing himself in order to kill the American kafirs".** USA expended billions of dollars to save the Kuwait from a brutal dictator such as Saddam Hussein. Today Kuwaitis hate Americans and shoot at American soldiers. Unbelievable as it may seem many Kosovars and Bosnians are anti Americans and anti Westerners even though the West waged a war against a Christian country for their sake.

It would be a huge mistake if we neglect to see that the root cause of all this hate is Islam. The rise of Islamic fundamentalism that started with Islamic revolution in Iran soon inspired the rest of the Islamic world and is now rolling our planet into a total disaster.

Islamic terrorism can be eliminated only when Islam is eliminated. Just as communism fell apart from within, Islam will collapse from within. Today it is ex-Muslims who have risen to slaughter this beast but we need the help of the world to achieve our sacred goal.

Billions of dollars, and millions of Jihadis willing to kill and die fuel Islamic expansionism. We are only a handful of writers and commoners, with nothing but the will to overcome hate and make the Earth a peaceful planet. But we will win; because love is more powerful than hate and truth is mightier than all the lies.
